YOUR MESS, OUR MESH!

GRANUTECH Powderizers produce materials from 6 mesh to 30 mesh, using 1/4" to 3/8" granulate as feed. Using a controlled feed device, our high performance Powderizers can generate output rates between 12 lbs./minute and 30 lbs./minute, depending on screen and feedstock size.

FEATURES AND SPECIFICATIONS

Physical Specifications:

- 66" x 32" x 46"
- 2,700 Pounds
- Power & Speed:
- 50 HP & 75 HP
- Versions Available
- 1800 RPM

Applications:

- Tire Processing
- Rubber Processing to 6-30 Mesh

Features:

- Solid Cast Base
- Interchangeable Screens
- Simple Blade Design with Four Usable Edges
- Low Operational Cost

Options:

- Feed Bin with VFD Controlled Feed Screws
- Fiber Scalper/Screeners
- Air System (required)
- Spark Detection/Suppression
- Drum Magnet
- De-Stoner
- Vibratory Screener
