

CONTINUING THE LEGACY

**MAC[®] MAGNUM[™]
LOGGER**

THE IDEAL LOGGER FOR AUTO RECYCLING!

The MAC® MAGNUM™ Logger is ideal for automotive recycling applications requiring a rugged, high-production machine. The MAC MAGNUM's continuous-rotation crane has the longest and strongest reach of any logger/baler in the industry, and can handle a load capacity of 5800 pounds at full reach. Equipped with a plus-size 20-foot wide high-production chamber and our quick cycle time, the MAC MAGNUM offers the flexibility to process cars and loose scrap, both ferrous and non-ferrous, into easy-to-load and transport logs or bales.

FEATURES AND SPECIFICATIONS

Chamber

- 8' 7" wide x 20' long
- 1" thick AR500 liner
- Large cleanouts with 2 side and top access

Crane/Cab

- 27' 4" crane reach
- 5800 lbs lift capacity at full reach
- Spacious Operator Cab with protective cage on windshield
- A/C and Heater
- AM/FM/CD Radio
- Clamshell or Orange peel grapple options

Hydraulics:

- Quick Cycle Hydraulic System
- Load Reactive Piston Pump
- High Efficiency Vane Pumps
- Full Return Line Filtration – 10 micron absolute
- Low Shock Pressure and Directional Control Valves
- 300 gallon hydraulic reservoir

Physical dimensions & Specs:

- 53' L x 98" W x 13'6" H
- 101,000 lbs
- 100-gallon fuel tank
- Four-corner large footprint hydraulic landing gear
- Ground Clearance: 21" under chamber

Log/Bale specs:

- 40" x 26" x variable (18" min) sizes
- 25-80 lbs/cubic foot variable densities
- Top and Side Compression: 286 tons
- Main Compression rams: 175 tons each

Production

- Car Bodies: 25-32 per hour
- Loose scrap: 15-22 tons per hour

Controls:

- In-cab IQAN Control System
- Manual or auto modes

Engine: 6 cylinder 215 HP Tier III Engine
