

New & Rebuilt Cutters

Experienced, Reliable Source for New or Rebuilt Shredder Cutters

Whether you require brand new replacement cutters or need your existing cutters rebuilt, Granutech-Saturn Systems has the capabilities to deliver. The Granutech difference is our more than 30 years of manufacturing and rebuilding cutters. Our cutter team prides itself on the quality of workmanship they put into every cutter.

Plus, our manufacturing facility includes a vertically integrated machine and tooling operation, which means we can manufacture new cutters as well as rebuild cutters for a wide array of shredders from other OEMs.

30 YEARS

Rebuilding cutters for dual and quad shaft shredders for more than 30 years

MANUFACTURING

Due to our expansive manufacturing capabilities, we offer new and rebuilt cutters for other OEM shredders

RIGOROUS TESTING

Each cutter is individually tested to ensure the correct tolerances
